

## **Forum on Grant-Making from Hong Kong and Mainland Perspectives**

The science of grant making manifests value of giving. It involves cross-disciplinary knowledge and skills of needs articulation, planning for changes and envision of impact. What are the societal synergies behind? How grantcraft leverages changes for impacting philanthropy? The Forum consists of Hong Kong Session and the Mainland China Session. Themes of the forum include: 1) needs and interests of grantmakers; 2) process of grant making; 3) stakeholders' analysis in grant making; and 4) grant making strategy in Mainland China.
