

Ms Annie Chen

Chair and Founder
RS Group

Ms Annie Chen is Chair and Founder of Hong Kong-based family office RS Group. Driven by her conviction that sustainability is the defining challenge of our times, and the belief that one should, and can, “invest in the future one wants to create”, RS Group invests its own capital sustainably and uses its resources to promote sustainable practices and economics. Through RS Group, Ms Chen also looks to seed particularly innovative philanthropic or impact investing strategies, aiming to enable the mainstreaming of environmental and social considerations in the wealth management context, particularly within Asia where such practices remain nascent. Born and raised in Hong Kong, Ms Chen obtained her BA from Brown University and her JD from Columbia Law School.
