About the JC-WISE Project

- Jockey Club Water Initiative on Sustainability and Engagement (JC-WISE)
- Funded by the Hong Kong Jockey Club Charities Trust
- Hosted by the Faculty of Social Sciences, HKU
- Aims to raise the public's awareness, and appreciation, of the importance of attaining long-term water sustainability for Hong Kong

About the JC-WISE Project

1. Re-connecting the public with our **rivers** – enhance the understanding of the multiple values of water
2. **Water Footprint** concept – recognising the impacts of consumption behavior on freshwater resources

“My River, My Community” Scheme

- Consists of professionally designed and guided field trips
- **Train-the-trainer programme:** The Project team trains the trainers to take students and the general public on guided river tours and to reconnect them with our city’s rivers.
- **GIS-based database:** Rivers@HK

**Workshop-cum-Guided field-trip to
Shan Pui River (山貝河) Catchment**
A Professional Enhancement Programme for Teachers

Saturday May 27, 2017
9:30am – 12:00nn | Workshop at Caritas Yuen Long Chan Chun Ha Secondary School
1:00pm – 5:30pm | Field-trip to Shan Pui River Catchment

Speakers
Dr Frederick Lee
Project Co-Investigator, JC-WISE
Dr Cho-Nam Ng
Project Co-Investigator, JC-WISE
Mr Anthony Yeung
Secondary Education Committee Member
Hong Kong Geographical Association

Abstract
As one of the earliest large-scale channelised rivers in Hong Kong, Shan Pui River catchment serves as an excellent site to demonstrate the environmental and socio-economic impacts of man-made modifications on our city's natural waterways. Designed specifically for teachers, the training activities will provide participants with up-to-date, in-depth knowledge of Hong Kong's rivers as well as hands-on student-oriented field-work design techniques.

The event will be conducted in Cantonese 活動將以廣東話進行
