JC-WISE ‘My River, My Community’ Scheme Workshop-cum-Guided Field Trip to Lam Tsuen River Catchment

Designed specifically for teachers, this workshop and guided field trip to Lam Tsuen River Catchment will enhance participants’ knowledge of rivers in the local context. The workshop focuses on the GIS-based database, Rivers@HK, which comprised of a comprehensive database on Lam Tsuen River and drone videos on the riverscape. The field trip begins at natural streams in the upper reaches of the river to let participants learn about the ecological functions of rivers. Through visiting green and eco-friendly river channels, pilot study area for ecological restoration and waterworks, participants will familiarise themselves with measures for minimising the environmental impacts of channelisation works as well as river channel management issues in Hong Kong.
