

## **JC-WISE “My River, My Community” Scheme Workshop and Guided Field Trip to Tung Chung River Catchment**

Ranked second highest in the diversity of fish species amongst Hong Kong’s rivers, Tung Chung River has high ecological value. A River Park, which is the first-of-its-kind in Hong Kong, will be established. This programme comprises a workshop and a field trip, is designed to provide participants with in-depth knowledge of Tung Chung River as well as Hong Kong’s rivers in general. Through visiting natural streams, channelised river section and wetlands, participants can gain a deeper understanding of river management issues and the outlook for water-friendly culture in Hong Kong.
