Brief Biography

Ms. Joyce Chow has been involved in various sustainability-related research and planning consultancy works since completing her master degree. She has solid experiences in organizing community participatory activities, holding workshops and charettes and training for NGOs, private developers and government departments. Her major research fields include environmental management, urban planning, sustainable development and transport planning. She has been elected as a Member of the Royal Town Planning Institute, the United Kingdom since 2008. Ms. Chow has performed as a project manager and co-ordinator in various training programmes and planning projects. The topics of the projects that Ms. Chow manages are diversified and cover various aspects of town planning and environmental management including sustainable development, environmental education, conservation, community planning and regional development and integration. Besides overseeing the progress of the projects, her main responsibilities also include coordinating the team, preparing working papers/reports, advising on planning and engagement strategies, assisting in the preparation of environment, planning and sustainability related policy studies/papers.
