

Professor Jianqin Wang

Associate Professor
Department of Psychology
Fudan University

Biography

Jianqin Wang is currently an Associate Professor at Department of Psychology, Fudan University. She achieved her PhD degree in Psychology and Law in Maastricht University in 2018, the Netherlands. Then she worked as a post-doctoral senior researcher at the Faculty of Law and the Center for Learning and Experimental Pathology, KU Leuven. Her research focuses on false memory, a phenomenon where people often make errors when retrieving memories for the past, and the consequences of false memory in the legal and clinical fields. She received the APS Rising Star Award from the Association for Psychological Science in 2024, for her contribution in uncovering mechanisms underlying false memory.
