Scenarios for Major & Minor Options

Remarks:

1. Students are allowed to choose one of the following disciplines as their first major.
 - China Studies (Social Sciences Stream)
 - Geography
 - Politics and Public Administration
 - Psychology
 - Social Policy and Social Development
 - Sociology
2. University requirements include a 6-credit of English in the Discipline course and two 6-credit courses in Common Core Curriculum in two different Areas of Inquiry.
3. Psychology major students without PSYC1001 exemption are required to take 72 credits for the Disciplinary major, and only required to take 30 credits of free electives at advanced level to fulfil the graduation requirements.

Scenarios for Major & Minor Options

4. For Psychology students who plan to conduct an independent empirical research in final year, they are advised to take **PSYC1004** in Semester 1 and **PSYC2060** in Semester 2 in Year 3.
5. For students opting for a minor under Faculty of Social Sciences (FoSS), you are required to make up the **6-credit** introductory course by taking a **6-credit** advanced disciplinary elective of your declared minor in lieu (i.e. a total of 36 credits advanced courses).
6. For students opting for a minor under non-FoSS, you are required to take courses based on the individual programme requirements. As a result, the credits of the introductory course(s) requested by your minor programme should be counted on top of **120 credits**. In other words, students may need to take more than **120 credits** to fulfil both of your disciplinary major and minor programme requirements, but not more than 144 credits.
