Class 5: Reflection and Gratitude

This is our last class. To sum up:

1. People from different places have different practices and habits, and this is something we should respect.
2. Respect also means being considerate and having good manners.

These are the things we can do:

1. Find common ground between ourselves and the others.
2. When faced with unfamiliar things, we should be respectfully curious and try to understand more.
3. Say “thank you” more often.

“Slides and Ladders” Game Rules

1. Follow the numbers on the board and roll a dice to decide how much to move forward.
2. If you land exactly on a square that shows an image of the bottom of a ladder, then you may move your game piece all the way up to the square at the top of the ladder. If you land at the top of the ladder or somewhere in the middle of the ladder, just stay put.
3. If you land exactly at the top of a slide, go all the way to the square at the bottom of the slide. If you land on a square that is in the middle or bottom of a slide, just stay put.
4. You can only win by rolling the exact number needed to land on the last square. For example, if you are on square 32, you need to roll a 4 to win. If you rolled 6, you need to bounce back by 2 squares and stay at square 34.
