Introduction to Student Study Progress

This system provides social sciences students a platform to keep track on their study progress to ensure timely graduation. Final year students, or students who have reached their *normative study period* MUST complete the checking in each semester.

To proceed with the study progress checking, you will be requested to select your enrolments for your first major, and also your declared minor(s), if applicable. For details of requirements, please refer to the [Regulations and Syllabuses](#) of the respective cohorts.

Please note that students will be able to graduate upon successful completion of all *graduation requirements*. Under no circumstances should students be allowed to extend their studies after the fulfilment of all graduation requirements.

Your submission will then be sent to the major/minor offering unit(s) for checking. You will be notified of the results in late November (for first semester) or late May (for second semester). Should you have any queries, please feel free to contact the [Faculty Office](#).

Important notes:

1. '*Normative study period*' means 4 semesters for students admitted through Direct Admissions Scheme.
2. '*Enrolments*' refer to all exemption and/or advanced standing granted, credit transfer and courses taken and/or enrolled at HKU.
3. Students who have been granted exemption are required to take the same credits of course in lieu.
4. DAS students should not enrol in any introductory courses other than the required courses (i.e. Two Common Core courses from two different Areas of Inquiry and PSYC1001 and/or PSYC1004 for Psychology major students). The extra introductory courses taken will be counted on top of the normal load of 240 credits.
5. '*Graduation requirements*' refer to the completion of (1) UG5 Requirements under First Degree Curricula, (2) Disciplinary Major, and (3) a minimum of 240 credits of courses with at least 36 credits of advanced free electives.

* This site is best viewed with a screen size of 1280 X 1024 pixels (min. resolution) or above.
